

WINSSEN TANDRA

Jakarta, Indonesia | hi.winsen@gmail.com | linkedin.com/in/winsen-tandra-322a24117/

10+ years of UI/UX experience across **fintech, proptech, medtech, and e-commerce**, spanning digital agencies and product teams across Southeast Asia. Covers the full product design lifecycle, from discovery and research through to high-fidelity prototyping and design system governance. Deep expertise in **design systems, accessibility, and AI-augmented workflows**. Currently the sole UI/UX Designer at Cove, a Singapore-based proptech platform, operating fully remote

RELEVANT WORK EXPERIENCES

UI/UX Designer — Cove, Singapore Apr 2021 – Present

- Designed and iterated the tenant app (iOS and Android) across Singapore, Indonesia, Japan, and South Korea, covering end-to-end tenancy flows including room discovery, bookmarking, stay management features, and maintenance ticketing
- Expanded the app with a community module featuring social feeds, tenant events, and perks to enrich the co-living experience, contributing to a ~170% increase in active users
- Owned end-to-end UX for the company’s main website across Singapore, Indonesia, Japan, and South Korea, covering visual design, information architecture, and content management
- Created high-fidelity Figma prototypes for usability testing and stakeholder reviews with production-like interaction behaviour, mapping user flows, edge cases, and error states to support engineering handoff
- Built and maintained a scalable design system with reusable UI components to ensure consistency across digital products and regional platforms
- Designed standardised marketing asset systems for multi-market campaigns and property launches
- Integrated AI tools into the design workflow with generative UI exploration and asset production to improve efficiency and iteration speed

UI/UX Designer — Rukita, Indonesia Sep 2019 – Mar 2021

- Designed core flows for a co-living platform's main website, with primary ownership of the property search experience and room listing
- Created high-fidelity prototypes in Sketch and InVision for usability testing and stakeholder validation, with interaction logic closely mirroring production behaviour
- Built and maintained a design system in Sketch covering typography, colour, spacing, and reusable UI components, with assets handed off to developers via Zeplin

User Experience Specialist — The F Thing World, Indonesia Dec 2018 – Sep 2019

- Designed the end-to-end website experience for The F Thing, MNC Group's fashion and lifestyle e-commerce platform, balancing product discovery with community-driven lifestyle content spanning fashion, beauty, music, and culture

UI/UX Designer — Sehati TeleCTG, Indonesia Aug 2018 – Nov 2018

- Designed end-to-end UI/UX for TeleCTG, a simplified cardiotocography platform connecting midwives with ObGyn specialists, spanning the full design lifecycle from user flow conceptualisation to clickable prototypes
- Translated complex medical workflows into intuitive interfaces for healthcare practitioners, ensuring clarity and accessibility for midwives operating in remote or resource-limited settings
- Collaborated with hospital and healthcare institution stakeholders to align standardised clinical guidance with usability requirements across the pregnancy monitoring experience

UI/UX Designer — WEEKEND Inc., Indonesia Feb 2017 – Jun 2018

- Worked with a diverse roster of clients, including Universitas Pelita Harapan, HM Sampoerna, and XL Axiata, designing websites and mobile apps from initial UX research and wireframes through to high-fidelity mockups and branding

Full Stack Designer — Kredivo Group, Indonesia Feb 2016 – Jan 2017

- Designed the Kredivo app covering the credit worthiness evaluation flow, instant credit wallet setup, and buy-now-pay-later checkout experience
- Designed and developed the Kredivo marketing website on Bootstrap 3, presenting a then-novel buy-now-pay-later service in Indonesia with a merchant partner directory to drive user awareness and acquisition
- Produced marketing and communication assets including ad banners, infographics, and email templates

SKILL AND TOOLS

Tools — Figma, Adobe Creative Suite, Webflow, Claude AI, Claude Code, Claude Design, v0 by Vercel, Google Stitch, Hotjar, Google Analytics

AI — Front-end development with Claude Code (HTML/CSS/Tailwind, responsive layouts, component architecture), prompt engineering for design-to-code workflows

Core design — UI design, UX research, interaction design, wireframing, prototyping, branding, graphic design, visual identity, print and digital collateral

Systems design — Component libraries, design tokens, style guides, developer handoff documentation, accessibility standards (WCAG)

CAREER HIGHLIGHTS

Cross-industry versatility

Delivered design solutions across various industries, including fintech (Kredivo Group), proptech (Cove, Rukita), medtech (Sehati TeleCTG), e-commerce (The F Thing), and agencies, showcasing versatility in working with diverse audiences, business models, and technical limitations

Startup-native background

Extensive experience across early to growth-stage startups in Southeast Asia, working in fast-paced, resource-constrained environments with a strong focus on adaptability, cross-functional collaboration, and execution-driven decision-making

Remote-first experience

5+ years of fully remote, async-first collaboration with an international team at Cove (Singapore HQ), well-versed in remote design ops, distributed sprint workflows, and written-first communication culture

AI-native design practice

Early adopter of AI-assisted workflows, using Claude Code to build front-end interfaces directly from design files, alongside tools like v0 and Google Stitch for rapid UI exploration, cutting design-to-development handoff time and expanding ownership beyond traditional design deliverables

EDUCATION

Binus University, Indonesia

Bachelor of Computer Science, 2010 – 2014
